# **Pricing For Native Wetland Plants 2012**

Envirotech is a native plant nursery and environmental consulting firm located in Somerset, Ohio about an hour east of Columbus. We are accomplished ecologists with experience in a wide variety of ecosystems including prairie, wetland, forest, and riverine. The nursery was established in 1994 to supply native wetland plants for use in restoration.

For restoration of mitigation wetlands, Envirotech routinely grows a number of VIBI (Vegetation Index of Biotic Integrity for Wetlands) sensitive species (see the C of C references within).

## Terms

### **Ordering:**

**All orders require prepayment.** Payments can be made by check. Ohio residents please add sales tax, or send a tax-exempt form with your order if applicable. All orders are subject to confirmation of availability and delivery schedule. Envirotech Nursery may not be able to provide all species or the entire quantity of each species requested due to unknowns of plant production. Substitutions may be necessary.

**Wholesale prices apply to orders of one tray per species.**

### **Shipping:**

Envirotech Nursery ships via UPS ground, delivery by our truck, or orders may be picked up at our nursery by appointment. We deliver within 300 miles for \$2.75 per loaded mile.

### **Scheduling:**

Plants can only be shipped when season and weather conditions allow for harvesting and shipping. Please place your order well before needed, to allow time for propagating. Some species may be available only during certain seasons. **Orders held past the scheduled delivery date will be charged an additional 5% holding fee per month.**

### **Cancellations:**

All cancellations must be made 30 days prior to shipment. Up to 25% of deposit may be non-refundable unless we have not begun to prepare your order.

### **Warranty:**

**ENVIROTECH GUARANTEES** that only healthy, stress-free plants will be sold. Plants are not guaranteed once they leave our nursery or truck and should be inspected at that time. Envirotech makes no warranty of the merchantability of our plants, or of their fitness for any particular purpose, and makes no warranties, express or implied. Envirotech is not liable for any direct, indirect, special, incidental or consequential damages incurred or claimed by a purchaser of our plants. All orders placed with Envirotech are subject to cancellation due to plant failure, because of weather, insect or animal damage or other causes beyond our control.
